To Who It May Concern,

I am a Title 1 reading teacher at Carlos Rey Elementary School. This year as a member of the Parent Involvement Goal Team I had the opportunity to work and learn from Amanda Tower.

She and Title 1 teachers collaboratively planned and held meetings/workshops that actively involved our parents. She also met with the ATP component of our Parent Involvement Goal Team to inform us on the six committees of the Epstein Model.

I witnessed parents interacting with one another through her activities, which has led to parents returning to other types of meetings. I believe she has laid the groundwork for our parents to now take on leadership roles.

I feel she was well informed, organized, and always pleasant.

Sincerely,  
Gerri Luján
